

SEO KEYWORD RESEARCH REPORT

PaperNest

Veda Technology – Basic Keyword Research Task

1. Executive Summary

This project presents a basic SEO keyword research framework for PaperNest. It identifies 40 keyword opportunities and classifies them by informational, commercial, transactional and navigational intent.

2. Research Objective

Identify relevant SEO keywords, classify search intent, select primary and secondary terms, group related keywords and explain the selection rationale.

3. Research Approach & Tools

The keyword set was developed from the business theme, product categories, target audience and search-intent patterns. The task brief references Google Keyword Planner, Google Search, Ubersuggest and Google Trends. No specific live search-volume or CPC figures are claimed.

4. Search Intent Classification

Informational – Learn or find information.

Commercial – Research options before buying.

Transactional – Purchase or conversion-oriented intent.

Navigational – Find a specific brand or website.
